# Interactive Coloring Sheets How-To

1. Using the patterns in the five small boxes at the bottom of each page, fill in the different parts of the pictures. Every time you run into a black line you need to change the pattern. You don't have to put patterns in all the areas, you can leave some blank. It's okay to repeat the patterns in different sizes in different areas.
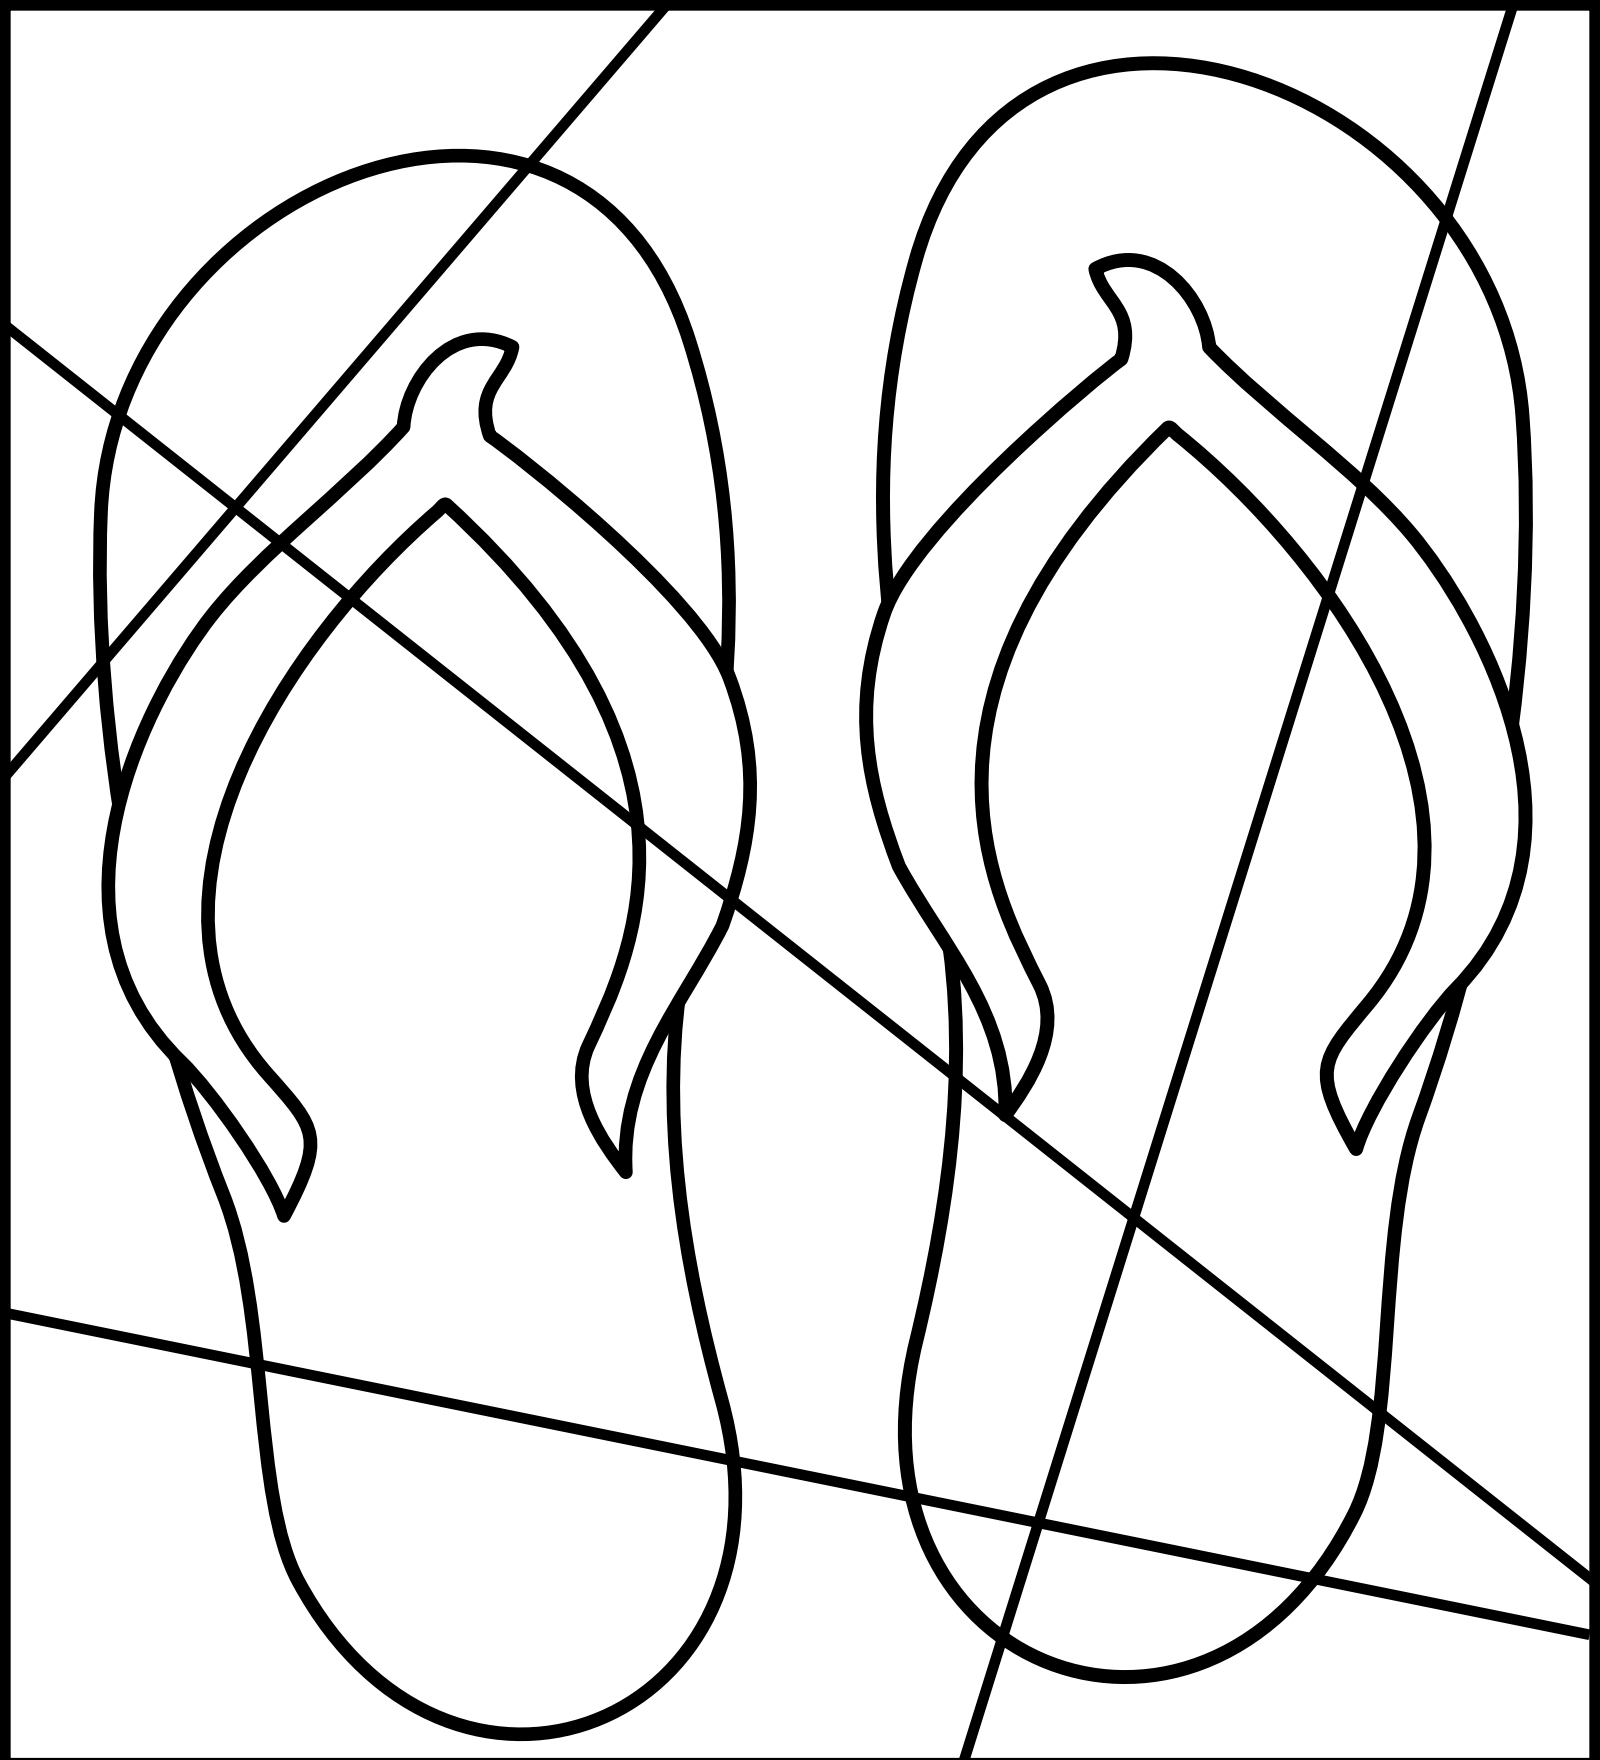

2. Color all the shapes and patterns. Use crayons, colored pencils or markers.
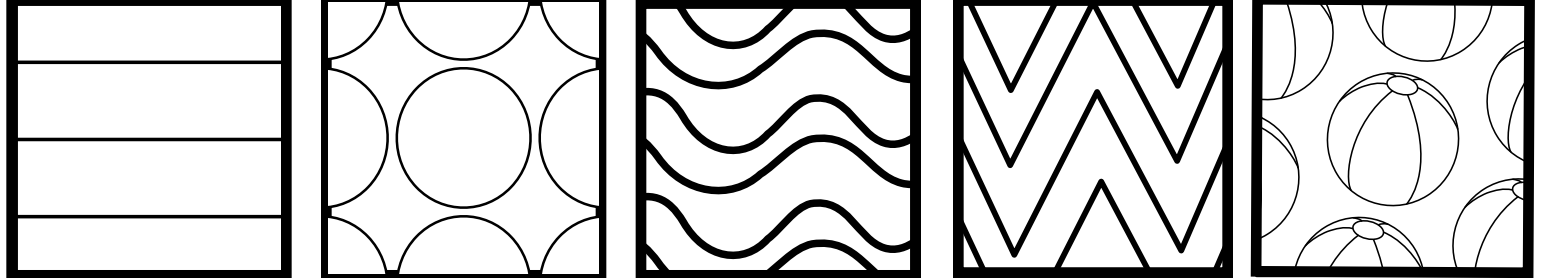

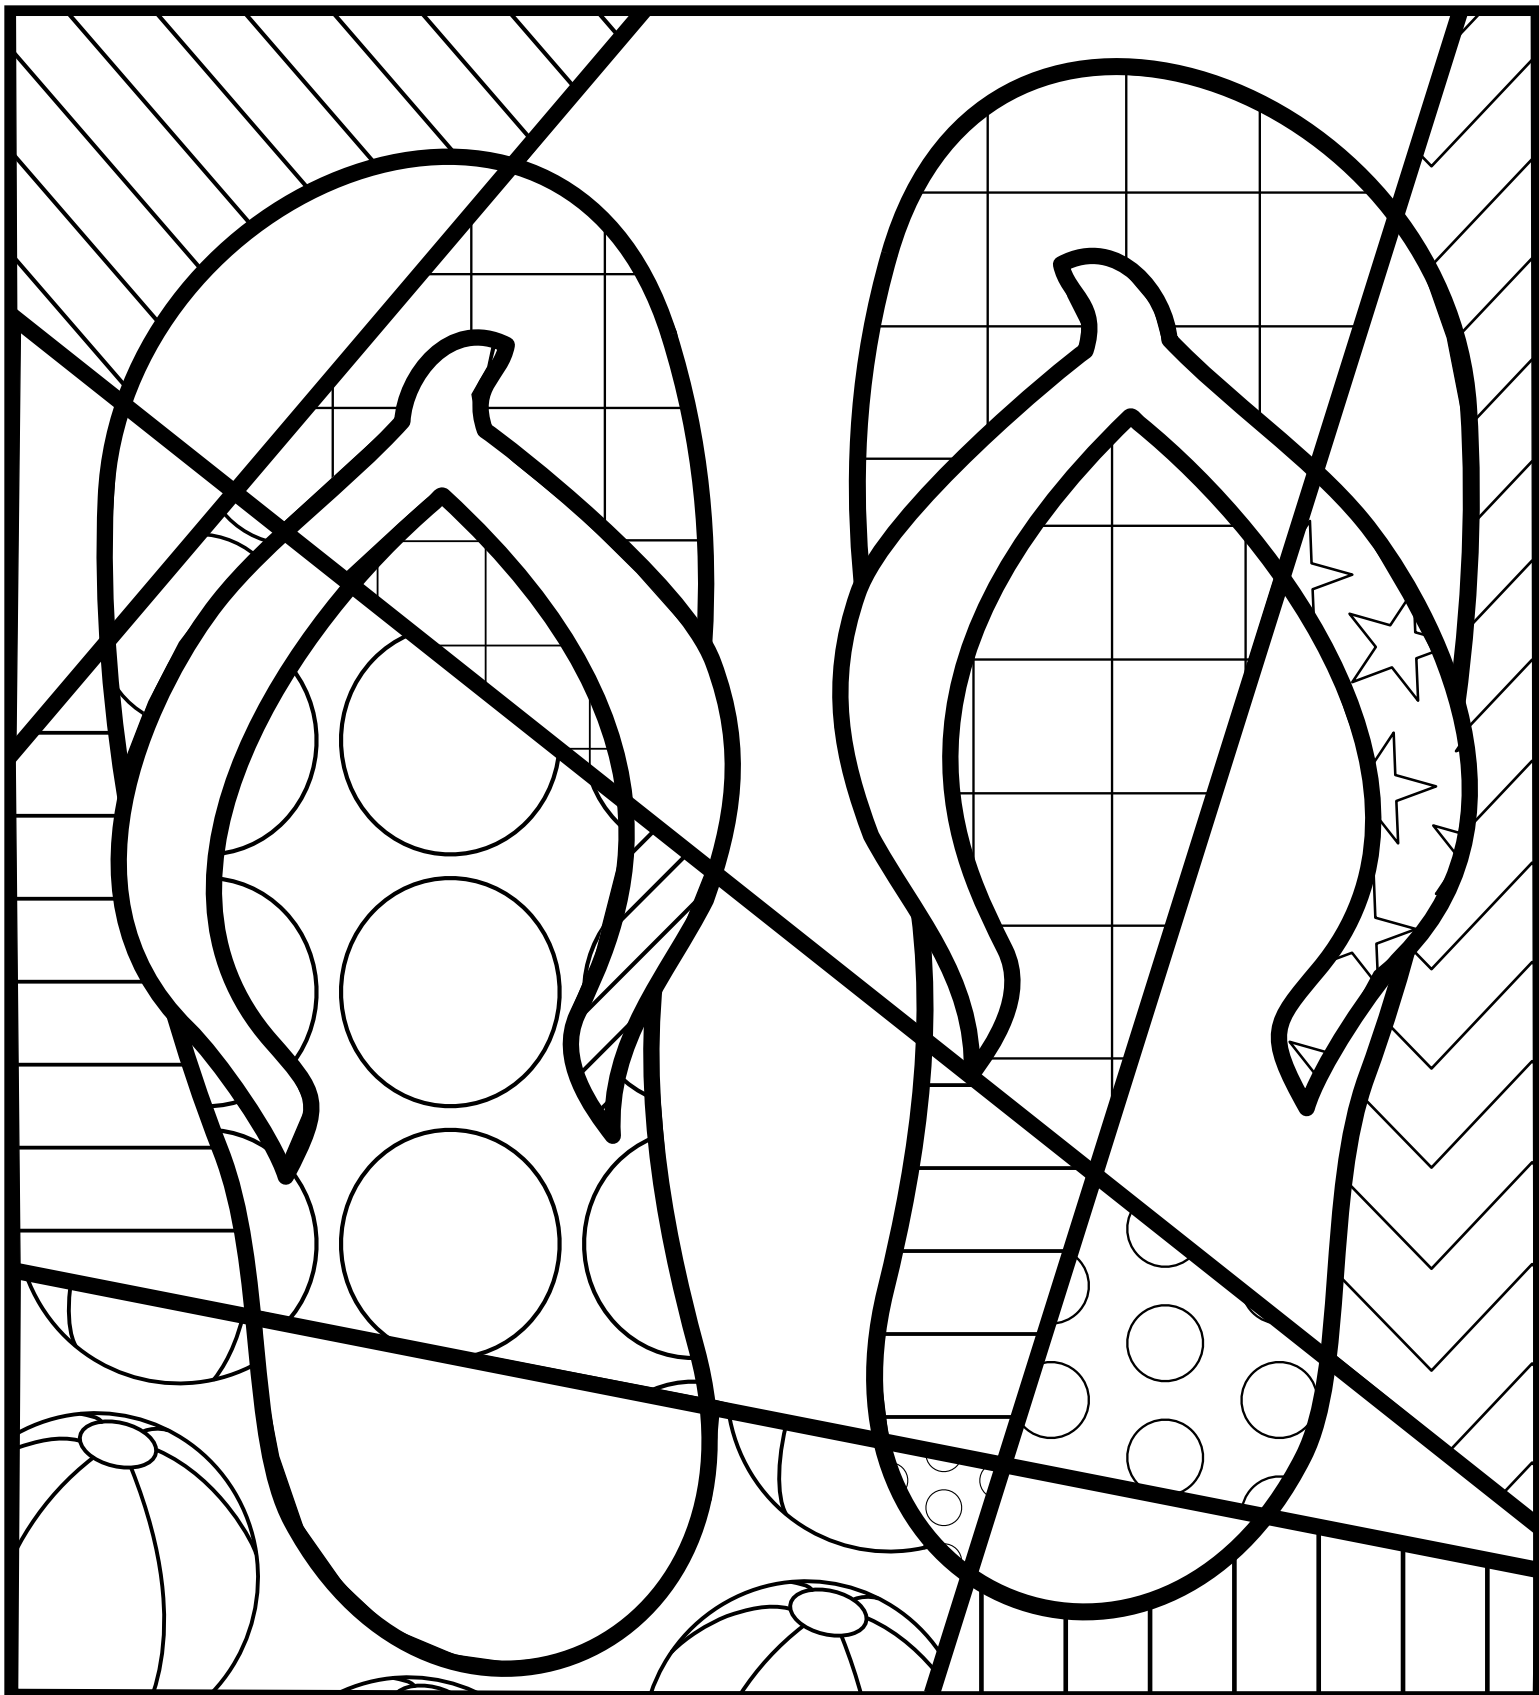

3. Cut out the large rectangle at the top with the finished work. Display for all to see!

Fill in all the areas broken up by black lines with the patterns below. Then color.

Color in all the patterns above. Then cut out your final work along the outside black line.
